

IS IT HEARING
LOSS...

...or just

EARWAX?

Otoscopic Demonstrations* are held for

5 DAYS ONLY

& They Are

FREE!

Appointment times are limited, so call today!

Your Otoscopic Demonstration* may reveal such common problems as:

- ➔ Excessive earwax
- ➔ Damage to your eardrum
- ➔ Other conditions which may make it difficult for you to hear clearly

You are invited to a

FREE Hearing Consultation

**To actually see inside your ear canal –
it would be fascinating, wouldn't it?**

**More importantly, it may help you understand
why you are experiencing problems such as:**

- ➔ Hearing the sounds, but not being able to distinguish certain words.
- ➔ Frequently asking people to repeat themselves.
- ➔ Having difficulty understanding when two or more people are talking.
- ➔ Turning the TV louder than normal.

**Now with state-of-the-art Fiber Optic Otoscope
technology, you can find out what's happening
inside your ear... literally.**

This procedure is completely painless.

Individual experiences with hearing aids will depend on the severity of hearing loss, accuracy of evaluation, proper fit and ability to adapt to amplification.

Small just got smaller.
A revolutionary hearing aid featuring the latest in nanotechnology.

Nanotechnology

Miniaturization taken to a whole new level.

Just Imagine ...

→ **LOUD NOISE SOFTENED WHILE SOFT SPEECH IS MADE LOUDER**

For those who have difficulty hearing and understanding amongst background noise.

→ **NO VOLUME CONTROLS TO ADJUST**

Just slip it comfortably into your ear and listen to what you've been missing!

→ **TINY DIGITAL COMPUTER**

Programmed to fit your specific hearing loss requirements.

→ **AUTOMATIC SOUND ADJUSTMENT**

As your sound environment changes, your digitally programmed hearing instrument adjusts itself ... AUTOMATICALLY!

Presenting:

The New Age of HEARING AIDS

Individual results with amplification will vary depending on duration and severity of loss.
